THE LEDGER PRINTS THE REAL NEWS

Miss Mary Bayless, daughter of Hon. F. D. Bayless of West Union, is awaiting an order to go to Cuba as a hospital nurse. Some time ago Miss Bayless tendered her services to the Adjutant General and recently she was notified that her services were accepted and to hold herself in readiness to go at a moment's notice.

A tally ho party came off the Pittsburgh steamer Virginia yesterday, consisting of Henry Wick and wife, Captain C. H. Booth and wife and Harry Bonner and wife. The coachman is George Aldrich, who is celebrated in West Virginia and Eastern Kentucky as a practical guide and stagecoach driver.

The party left over the Lexington pike, booked for Louisville. They will return to the steamer at Cincinnati on her next trip.

OUR SALOONS NEVER CHANGE. They build new-fangled battleships. They sweep the boundless seas. Torpedo boats and other craft. They lead to victory. They make new guns of mighty bulk. And most astounding range. New cannon kill the foe, but Our saloons never change.

They are the same as those who fought With Jones upon the wave. The same as those who fought Heroically and brave. They fight today just like the tars Who stood at Perry's side. And like the Yankee boys who fought When gallant Lawrence died.

They man the guns as they were manned One time in Mobile Bay. They fight as when our Window steered To victory his way.

The sailors of the present time Are like the men who stood And fought with noble Hull behind Their floating walls of wood.

Ah! they may build new battleships And change the art of war; But you will find upon their decks The same old Yankee tars. He strives for strife just like the man Who fought in vessels strange; New guns, new shells, new cruisers, but Our saloons never change.

—T. C. Harbaugh.

REAL NEWS!

For one day, at least, the "fake" factory did not work a gold brick or a lot of green goods on the public.

The dream of the humorist is coming to pass. Torpedo boats were built as destroyers, and then came torpedo-boat-destroyers. Now the Government has resolved to build a fleet of destroyers-of-torpedo-boat-destroyers. They are to be of about 400 tons displacement, and will have a speed of twenty-eight knots an hour.

A dispatch was received by THE LEDGER yesterday afternoon saying that in London there was a "persistent rumor"—whatever that may be—that Spain's Cape Verde fleet had gone to Cadiz and united with the fleet there, and that the combined fleets would sail for America Sunday. Europeans Want Uncle Sam to Possess the Philippines.

THIS BARKIN IS DEAD WIELING

A dispatch from Rome reports Guido Bacelli, the celebrated statesman and the coming premier, as saying—

"America should keep the Philippines; first, because from the standpoint of international law she has the right of conquest; and, secondly, from the standpoint of policy. The United States is the only power which can now have them, as they should not be returned to Spain, which, being without a fleet and finances, the islands would become reserchless—a bone of contention for the European powers, thereby precipitating the far East conflict. If ceded to England, it would be considered by Russia and Germany as a cause belli, as destroying the equilibrium in the far East. The powers, therefore, in their heart of hearts hope that America will keep the Philippines, as she is the only power capable of guaranteeing their neutrality and is not suspected of designs of territorial aggrandizement."

In London Sir Charles Dilke, when asked whether any question of International Law or practice affected the United States' right to retain the Philippines, said—

"None whatever. The United States will hold the Philippines by right of conquest. No power, or powers, will have the slightest title to interfere."

"But may not some power, Germany or France, for instance, bring pressure to bear, on the United States to surrender them?"

"That idea of continental pressure I regard as all nonsense. No power would attempt pressure unless we were in the same boat with them, which we never will be. Without English Naval support no power will venture upon any action in the matter."

SPAIN'S FLEET

The Cape Verde Fleet Reported to Have Returned to Cadiz, Spain.

SAFETY OF THE OREGON NOW ASSURED.

The Way for Military Operations of Uncle Sam in Cuba is Now Clear of All Interruption.

There is a Possibility That Spain Will Send the Vessels to the Philippines for the Purpose of Attacking Adm. Dewey at Manila Bay.

WASHINGTON, May 11.—It is hard to tell whether the naval officials were relieved or disappointed by the news that came late Tuesday afternoon to both the navy and state departments to the effect that the Spanish flying squadron had arrived at Cienfuegos, Spain. The safety of the Oregon from attack is now completely assured and the way is clear for military operations in Cuba without running the risk of having the occupying army's line of communication cut off. On the other hand it is believed that no enduring peace can be secured until the Spanish navy has been destroyed and it now appears that to this our sailors must make up their minds to go after the Spaniards, a task very more difficult than that of meeting them near our own shores. It is suggested by some of the members of the war board that there was just a possibility that the Spanish squadron might make a quick passage into the Pacific through the Suez canal and attack Dewey at Manila. It is said that contrary to the common understanding the Suez canal is open to the war ships of belligerent powers, so that if the Spanish choose to take this course they would have a long start of any pursuing fleet from our side of the Atlantic. It is scarcely believed however that the Spanish are willing to take the greatest risk of exposing to attack their own home ports by the withdrawal of so considerable a proportion of their fleet. It is believed that the Spanish government would be required to overmatch Dewey. Nothing was heard from Sampson Tuesday, but there is a confident expectation that interesting news will come from his squadron within the next 24 hours. Whether this means an attack on Porto Rico or not can not be learned.

One effect of the retreat of the Spanish fleet has been to hasten even more the preparations already in progress on the way to the dispatching of military expeditions to Cuba. It also has caused a delay in the concentration plans. There is now believed to be the greater factor. There is no longer opportunity to include in the expedition a large practice maneuvering. The regular army troops do not need these and are being thrown into the line. Many of the regiments of the national guard which are entering the volunteer service are felt to be sufficiently trained from a military point of view to follow the regulars immediately and the department indicated its purpose Tuesday afternoon. These volunteer troops directly to the gulf coast for shipment, instead of sending them to Chickamauga. This disposition was shown by the change in the new orders to the troops, although there yet may be a return to the original program of concentration if the plans show signs of weakness as they develop. The quarter-master general has already gotten under charter of military transport for the transport of troops, and regular speaking these could carry about 100 men. Others are being procured as rapidly as possible. The plan of the war department is to have these vessels assemble at the different gulf ports, Tampa, Mobile, Orleans and Galveston to take on troops which will be sent there. The war department is also sending Spanish convoys for these transports, which would be absolutely helpless against a Spanish attack. At this point there are signs of friction. The transports will be obliged to await Adm. Sampson's return in order to secure proper conveyance, and secondly the navy objects very decidedly to undertaking the task of conveying a number of transports. It insists that the safety of the convoy of the troops of all of the transports should be gathered in one fleet to start from Tampa, and the navy is likely to prevail in this.

Now that Maj. Gen. Sewell has been assigned to command the concentration camp at Falls Church, preparations are being rushed to put the grounds there into a proper condition for the reception of the volunteers.

LONDON, May 11.—There is no confirmation of the report that the Spanish fleet from the Cape Verde Islands has returned to Cadiz, but it is generally regarded as the most likely movement to be made and as an indication that Spain has decided to let her West Indian possessions go.

This question is generally asked: "What possible use has Spain for continuing a hopeless struggle, as it is considered next to impossible that she has any alternative plan than the retreat of the squadron hides some strategic design."

SITUATION IN ITALY.

The Rebels Are Being Mailed—A Rigid Censorship of Telegrams Has Been Instituted.

LONDON, May 11.—The Milan correspondent of the Daily News telegraphing Tuesday night says: "I am unable at this moment to send you more than a few scraps of news. Fresh and more rigid measures have been adopted in the censorship of telegrams. The forced silence is most onerous. STIRRING TIMES AT CHICKAMAUGA.

Moving the Big Command From There Will Be a Big Undertaking for the Various Railroads.

The Majority of the Officers Say It Means They Will Land on Cuban Soil as Soon as Possible—Gen. Miles Will Be in Command.

CHATTANOOGA, Tenn., May 11.—At Chickamauga park Tuesday, officers and men of the regular army regiments were rushing as they have not been called upon to do since the days

of the civil war. The order for the entire army to pack up and go to the front at once was announced at nine o'clock and since then things have been moving at a tremendous pace. The railroad men have been running all available cars to the park, and as rapidly as they arrive they are loaded with the camp equipment, horses, supplies, etc.

The work of moving the big command during the next few days as they are expected to do, is an immense job for the railroads. They had received no intimation of the sudden order and had made no adequate preparations. The two lines to Tampa, the

amount of equipment in the park, and the whole business can not be moved within a few hours. Col. Sheridan refused to give any opinion about what the order meant.

The majority of the officers however do not hesitate in saying that it means they will land in Cuba as soon as they can get there.

Besides the infantry division, the Second and Sixth cavalry go to Tampa. The Second cavalry will go to Mobile and the First and Tenth cavalry to New Orleans. All the artillery was sent out several days ago.

Gen. Miles will take personal charge of the troops, and it was his intention to leave for Tampa Tuesday night on the 10:40 train over the Southern railroad. But Tuesday morning some important business developed in regard to the expedition which prevented him

The Norwegian steamer Irtaberg, which arrived at Key West Tuesday morning under the convoy of the Maine, is still a prize of war, pending the decision of the United States on the question. The affair bears many features of resemblance to that of the French steamer La Fayette, but, like that case, it will be settled without any international complications.

PLUMVILLE PICKINGS.

What Our Good Friends Have Been Doing Since Our Last Report.

There were some tobacco plants set out in this section the past few days.

Mr. G. D. Jenkins, Jr., formerly of this section, is residing at Portersville. E. L. Cobb painted the new residence of Mr. Andrew Clark on Bull Creek last week.

Elder D. C. Yezell has so far recovered from his recent illness as to be driving one day last week.

Mr. Samuel Yezell has returned to his home in Fleming county after a pleasant visit to his parents, Elder and Mrs. D. C. Yezell.

Services at the Church here Sunday evening, the 14th, at 7:30 and Sunday morning and evening following at the usual hours for worship by the Pastor, Elder J. Tomlin. All cordially invited.

The house machine starts hot and stops but once. You can keep it going longest and most regularly by using DeWitt's Little Early Riser, the famous little pills for constipation and all stomach and liver troubles. Henry W. Ray, adjoining Postoffice.

Masters Lowry Orr and George Foxworthy are playing with a grasshopper every evening since. Lowry, in the act of catching his misfellow's hand, received a severe blow from the book, badly cutting the palm of his hand.

The Cleveland Plain Dealer suggests that Commodore Dewey will have to vary the famous dispatch of Commodore Perry, so that it shall read as follows: "We have met the enemy, and they would have been ours, but there was nothing left of him."

When Nature
Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedy only when used. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Co.

Some People Think
that because we sell Steinway Pianos, we sell nothing else, and they must necessarily pay a high price if they buy of us.

They are Mistaken
for we have other high grade pianos such as the **Hazeltin, Smith & Barnes, Gable, Kurtzman**, etc., superior in touch, tone and finish at prices most moderate. We offer intending purchasers greater variety and better value, dollar for dollar than any house in the West.

If you can not come, write for full information.

INTERNATIONAL CONVENTION.

Preparations Being Made at Nashville to Entertain the Y. P. S. C. E.

If prospects, preparation and push stand to mean what the dictionary tells us to look for, then the International Christian Endeavor Convention to be held "Away down South in Nashville" July 6th to 11th certainly has its indexes out and the world-beating record is to be reserved for the glorious Southland, which is replete with the perfume of flowers, charming with the greeting of true hospitality, which alone will repay for a visit to Tennessee.

A great delegation will go from Louisville, Lexington, Frankfort, Danville and many other Kentucky towns. Rates are very low on all railroads. Hotel rates in Nashville are greatly reduced, and the cheapness of the trip is inducing dozens to go who could not otherwise.

Mayville is in the Second District, made up of Fleming, Nicholas, Bracken, Lewis, Boyd, Greenup and Mason counties. Harry C. Curran of our city is the duly appointed Transportation Agent for this District. Every Society to every town throughout the Second ought to communicate with him relative to going. Arrangements are now being made and a place of rendezvous settled so all Kentucky delegates can go together.

A bath with Cosmo Butterfield Soap, exquisitely scented, is soothing and beneficial. Sold at Crenshaw's Drugstore.

The run of coal from Pittsburgh will not amount to as much as was anticipated on account of the river having failed to reach a coal-bait stage. The following boats are coming: The Dick Fulton, Pacific No. 2, Stella Moren, James Moren, Pacific, Coal City, Volunteer, Wilcox, George Shiras and Sam Brown. The shipment aggregated 114 barges, 20 flats and 8 light boats, a total of 1,328,000 bushels of coal. A few other boats are expected to get away today.
